>When reciving the car they will ask you for passport, driver's license and credit card. Have them prepared. They will make a charge of $100, and it's only get used in case of extra costs not covered in insurance (Fuel not full, fines, etc). At the end if there are no extra costs they will return the money.
>Together with the representative will check the car for previous damage. And make sure the tank is full, tires and spare tire are in good shape and the safety kit
>The car comes with Wifi, ask for the password and connection.
>For the maps you can use either waze or google maps. It's recommended to previously download the route you are goingto take as there are places where there is no internet.
>Always drive defensively. Roads, people and animals are unpredictable.
>The best driving hours are in the afternoon, and it gets dark around 5:45. Try to be in your destination before darkness.
>Bridges in the country side are usually narrow so be aware of the signs around it to know if you have the way or not. The sign that tell you you must give the way is a inverted triangle with red borders saying "Ceda el paso", meaning give priority to the other.

>Fines are payed in a bank. Neverpay the fines directly with the officer that gives you the fine. In case this happens contact Ecola or the rental company.
>Park at designated areas. Never leave valuable things in the car. There is usually people around popular spots, we call them “Watchimanes”, Costa Rican way to say watch man. You can usually give them 1000 colones and thats more than good for them.
>There is gas stations al around the country espacially in popular destinations. Pumps are not of self-service so wait for somone. Always have enough fuel. And keep inind the car must be returned with a full tank.
> In case you are in an accident, don’t move your vehicle. Call 911 and wait until an officer arrives to make a report. After calling 911 call the rental car company, as they have offices all around the country and they can send someone to assit you.
